*Everyone will be carrying their "myiFLASH" with them...  
"Life is a FLASH!"*

# INTRODUCTION

Introduced in May 2009, **myiFLASH** is a proprietary design which was developed by TMI Microsystems, Inc.. The Software utilizes "open source" software which transforms a flash drive into a useful promotional and educational tool for any personal or business use. It literally is "Your Business in a FLASH".

**“It was designed to provide file security, access to FREE resources, program applications, and promotion of business forms, videos, power-point presentations, web-site links & urls, and audo files.”**

**- Tony Sama, Founder & CEO**
